

What Our Parents Are Saying

John was very excited about this program. It challenged him, but was also very enjoyable for him. You made learning fun. When he is doing something he will often say, "Hey, we did that at Synap2it." I think this has been a great learning experience for him that he will carry through life. Thank you so much.

-Carol, Bowie, Parent of a 6th grader

I think Synap2it helped him focus and launched his self-esteem. He doesn't feel like he's the stupid kid anymore. Used to cry with homework, not now!

-Karen, Eastern Shore, Parent of a 3rd grader

We wanted to express our thanks for all you have done for Brian. I have seen such a turn-around in him. You sure have made the rest of the school year much easier! He also picks up a book to read without being told. It was always a fight.

-Jill, Millersville, Parent of a 2nd grader

The wonderful Synap2it staff, the unusual approach to teaching and the physical activities like jumping on the trampoline made Brad enjoy coming to Synap2it from the very start.

-Kris, Annapolis, Parent of a 5th grader

She's doing well this year. She is even taking a psychology class at the community college!

-Tom, Annapolis, Parent of a 12th grader

The overall effectiveness of the program was impressive. It helped Troy to help himself and he was always happy to come to Synap2it.

-Sylvia, Upper Marlboro, Parent of a 3rd grader

She is more confident, reading more and won 6 out of 8 swimming races.

-Cindy, Severna Park, Parent of a 4th grader

He does not disrupt the class like he did before, a result of his prior need to find something else to do because of his language processing difference. Scott has come a long way since the summer and Synap2it/Synap2it helped him get there! Thank you!

-Renee, Annapolis, Parent of a 3rd grader

She is now reading books for pleasure that she will trade with her friends!

-Maggie, Edgewater, Parent of a 4th grader

I could not be happier with our experience at Synap2it. Dean has improved dramatically, both academically and emotionally. Not hearing "I don't want to go to school." anymore. I'm so glad we found you! Totally on his own, he did a report and asked to present it to the class. The kids really enjoyed it.

-Teresa, Edgewater, Parent of a 4th grader
